

# Car Refinishing

*Experience the **RAZOR™** gun  
and painting will always be a pleasure !*

**GRACO® presents the LVLP, profiting from a unique technology developed exclusively for the RAZOR line :**

- Thanks to the LVLP, **you save up to 25% of your usual air consumption.**
- It is the ideal gun for body shops having a limited air supply, **it requires only 1,1 bar of entry pressure.**
- LVLP technology **reduces the consumption of product up to 25%.**
- You preserve **the same speed of application** than with a traditional gun.
- Like all the guns of the RAZOR range, the LVLP offers you an **exceptional finishing quality.**
- The ergonomics of the RAZOR was studied for the **painter's well-being.** Its perfectly shaped body and its weight (440g), **one of lightest in the market,** reduce tiredness and the pains due to a repeated use.
- Hardware don't have to be only powerful anymore, line RAZOR gets guns with a **complete modern design** to you.

The  
**NeXT  
Step**
