AUTOMOTIVE REPAIR CATALOGUE

DRIVING SURFACE PERFECTION™

U-POL IS A WORLD LEADER IN AUTOMOTIVE REFINISHING PRODUCTS SPECIALISING IN FILLERS, COATINGS, AEROSOLS, ADHESIVES & PAINT RELATED PRODUCTS.

Recognised globally with sales in over 100 countries, **U-POL** is committed to consistently providing customers with high quality products that professional technicians demand. Our heritage and experience of over 70 years in the industry, coupled with our continued investment in state-of-the-art manufacturing facilities and reputation for innovation, ensures that your **U-POL** experience is nothing less than world class.

DID YOU KNOW?

- **U-POL** Head Office is located in London with over 4 acres of manufacturing facilities in Wellingborough.
- **U-POL** products are all produced with high quality European resins.
- **U-POL** has 13 offices and 5 distribution centres worldwide.

U-POL products are designed and developed for today's professional technicians. Our products are developed to improve bodyshop efficiency and ensure a great result first time, every time.

USEFUL TO KNOW

Quick access to our Safety Data Sheets and Technical Data Sheets is available by visiting our website.

U-POL PRODUCTS GIVE UNRIVALLED RESULTS FOR ALL STAGES OF THE REPAIR PROCESS

DRIVING SURFACE PERFECTION™

U-POL has a comprehensive range of fillers and coatings and we are uniquely positioned to deliver solutions developed, tested and approved for the modern bodyshop. We know your reputation matters and that's why **U-POL** is investing in future innovation - to help your team get it right first time, every time.

FILLERS

PAGE 8 - 11

U-POL offers a comprehensive range of body fillers to streamline repairs that are simple to use and easy to sand. To satisfy bodyshop demand for quality and performance, our range utilises the latest advancements in resin technology to give the perfect finish first time, every time.

SPECIALITY FILLERS

PAGE 12 - 13

U-POL speciality fillers are formulated for specific applications where an all purpose filler just won't do. Each product has been put through extensive testing to ensure you have the right product for the right job.

AEROSOLS

PAGE 15 - 20

Our premium aerosols are a comprehensive range ideal for spot/panel and SMART applications. Special clog-free nozzles give a spray gun-like finish to every job. The **Power Can™** refinish range has been formulated to re-create professional results with the convenience of an aerosol.

U-POL Custom Can™ Colour Centre offers instant, accurate filling of aerosol spray colours.

COATINGS

PAGE 21 - 25

U-POL coatings offer superior performance in a range of formulations to suit a variety of bodyshop conditions and specialised applications. The Coatings category includes the comprehensive **System 20** range and high performance specialist coatings.

THINNERS & PAINT ANCILLARIES

PAGE 26 - 27

U-POL offers a full range of thinners and paint ancillaries designed to prepare automotive surfaces and facilitate a smooth coating application.

RAPTOR® COATINGS

PAGE 30 - 31

RAPTOR is a tough and tintable protective coating that provides surfaces with a protective barrier to withstand the toughest situations.

ADHESIVES, SEALANTS & PLASTIC REPAIR

PAGE 32 - 34

U-POL adhesives and sealants range has been designed to provide durable, high strength bonding and sealing solutions for various automotive applications.

COMPOUNDS, POLISHES & REFINISH ABRASIVES

PAGE 35

U-POL high performance refinish abrasives, compounds and polishes deliver fast results eliminating surface defects to deliver a high gloss finish.

SPRAY GUNS & BODYSHOP CONSUMABLES

PAGE 37 - 38

U-POL offers an extensive range of refinishing abrasives and consumables - a must for every bodyshop.

DRIVING SURFACE PERFECTION

ULTRA-SMOOTH, ULTRA-FINE, DOLPHIN FILLER RANGE FOCUS ON PERFECTION

When it has to be perfect, it has to be the next generation of U-POL Dolphin fillers.

Built on unrivalled foundations, these high strength, ultra-fine fillers ensure the perfect feather edge, high adhesion across all automotive metal substrates and a super smooth, easy to sand finish time after perfect time.

Visit u-pol.com for more information, to download a brochure or to view the new Dolphin process video.

TOUGH AND TINTABLE PROTECTIVE COATING

RAPTOR Tough and Tintable Protective Coating is a durable polyurethane coating that provides surfaces with a protective barrier that can withstand the toughest situations.

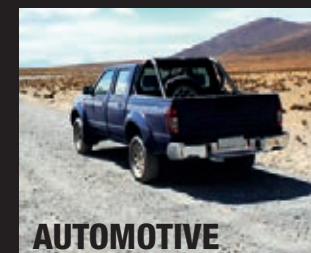

Developed to tolerate most climatic conditions, **RAPTOR** is UV resistant and won't fade or "chalk" even after hours in the sun. **RAPTOR** is also waterproof and protects surfaces from rust making it perfect for surfaces that will be submerged in water, including salt water.

RAPTOR's versatility makes it perfect for almost any application. Spray **RAPTOR** on high traffic areas; it is stain resistant and easy to clean. Its flexible formulation can handle impacts without cracking, making it perfect for its most popular application as a truck bed liner.

RAPTOR protects the roughest industrial surfaces as well as the smaller surfaces we rely on every day. Unlike other bed liners or protective coatings **RAPTOR** can easily be repaired. It's durable, looks great and it lasts a long time.

When you need a surface protection solution that can stand up to the elements, choose RAPTOR...

IDEAL FOR A WHOLE RANGE OF APPLICATIONS...

U-POL BODY FILLERS

A comprehensive range of fillers to satisfy bodyshop demand for quality and performance. Our range utilises the latest advancements in resin technology to give perfect results every time.

EASY FILLER RANGE

EASY™ 1 Lightweight Body Filler For Deep Repairs

An easy to use, smooth textured polyester filler for deep repairs. The non-sag formula is ideal for use on vertical or horizontal repairs and its lightweight formula bonds to multiple substrates including galvanised steel, metal and GRP.

- Smooth textured, tack free finish
- Easy spreading and quick to shape
- Non-sagging when used on vertical surfaces

Substrates: Direct to metal, prepared OEM paint surfaces, aluminium, galvanised, SMC, fibreglass, lightly abraded E-Coat

CODE	SIZE	COLOUR	CTN
EASY/7	3L Tin	Grey	3

EASY™ 2 Lightweight Body Filler For Medium Depth Repairs

A smooth filler for small area medium depth repairs. Its lightweight formula is very easy to sand and shape even after extended cure time.

- Easy to sand and shape
- Tack free finish
- Good filling properties

Substrates: Direct to metal, prepared OEM paint surfaces, SMC, fibreglass, lightly abraded E-Coat

CODE	SIZE	COLOUR	CTN
EASY2/3	3L Tin	Light Grey	4

EASY™ 3 Extra Smooth Finishing Filler

An easy to use ultra smooth finishing paste for skimming and fine finishing in thin layers prior to the paint process.

- High adhesion to multiple substrates
- Ease of application
- Easy to sand

Substrates: Direct to metal, prepared OEM paint surfaces, aluminium, galvanised, SMC, fibreglass, lightly abraded E-Coat

CODE	SIZE	COLOUR	CTN
EASY3/1	1.1L Tin	Gold	8

SMOOTH 7™ Smooth Body Filler for Deep Repairs

Smooth 7 is ideal for repairing large, deep or uneven areas. The formula is specially developed to give excellent filling properties whilst maintaining smooth spreading capabilities and good adhesion.

- Easy spreading
- High adhesion on multiple substrates
- Ideal for large or uneven areas

Substrates: Direct to metal, prepared OEM paint surfaces, aluminium, galvanised, SMC, fibreglass, lightly abraded E-Coat

CODE	SIZE	COLOUR	CTN
SM/7	3L Tin	Light Grey	2

FANTASTIC FILLER RANGE

FANTASTIC™ BODY FILLER Ultra Lightweight Body Filler For Medium Depth Repairs

An ultra lightweight multi-functional filler ideal for medium and fine panel damage in most substrates. Formulated using the latest lightweight technology, it combines excellent filling properties with ease of sanding.

- Soft and smooth formula
- Superb sanding for reduced process time
- Easy to shape and no shrinkage

Substrates: Direct to metal, prepared OEM paint surfaces, aluminium, galvanised, SMC, fibreglass, lightly abraded E-Coat

SPECIALITY FILLERS

U-POL speciality fillers are formulated for specific applications where an all purpose filler just won't do. Each product has been put through extensive testing to ensure you have the right product for the right job.

FIBRAL® Fiberglass Filler

Two component sandable fibreglass filler which takes the place of short and long strand products. Ideal for bridging holes while providing a tough, resistant GRP coating.

- Watertight seal
- Can be sanded and shaped once cured
- Easy to cover with standard polyester filler and can be overpainted directly

Substrates: Bare steel, fibreglass, SMC, GRP, fully cured paint surfaces

U-POL PERFORMANCE AEROSOLS

Our performance aerosols are a comprehensive range ideal for spot/panel and SMART applications. Special clog-free nozzles give a spray gun like finish to every job.

PREMIUM AEROSOLS

CLEAR#1
UV Resistant Clearcoat

Advanced clearcoat that gives an excellent high gloss finish with UV resistance and durability. Ideal for spot repairs, wing mirror covers, door handles and mouldings.

- Excellent flow and depth of gloss
- Easy to use and fast drying
- Compatible with solvent and water based basecoats

1-2 coats @ 25cm

60 mins

CODE	SIZE	COLOUR	CTN
CLEAR/AL	450ml Aerosol	Clear	6

WELD#2
Weld Through Primer

A high adhesion, super conductive primer offering excellent rust protection when applied to suitably prepared panels prior to SPOT, MIG and TIG welding.

- Fast drying
- High concentration of zinc or copper in the dry film
- Corrosion resistant

1-2 coats @ 25cm

10-20 mins

CODE	SIZE	COLOUR	CTN
WELD/AL	450ml Aerosol	Zinc	6
WELDC/AL	450ml Aerosol	Copper	6

SPOT#3
Universal Spot Primer

A fast drying universal spot primer ideal for small rub through areas and localised repairs. Use directly on metal or plastic parts.

- Highly flexible, excellent adhesion
- Can be overcoated with most water or solvent based top coat
- Fast drying and easy to sand

1-2 coats @ 25cm

15-20 mins

CODE	SIZE	COLOUR	CTN
SPOT/AL	450ml Aerosol	Grey	6

Substrates:

Substrates:
Direct to metal, prepared OEM paint surfaces, aluminium, galvanised, SMC, fibreglass, lightly abraded E-Coat

GRIP#4 1K Universal Adhesion Promoter

A ready to use universal adhesion promoter for paints, adhesives and sealants. Ideal for all automotive surfaces such as plastics, aluminium, fibreglass, galvanised and painted surfaces. Replaces the need to abrade surfaces in difficult to access areas.

- Sprays flat - no sanding required
- Can be overcoated with most water or solvent based paint systems
- Provides a protective barrier against lifting or solvent attack

1-2 coats @ 25cm

10-20 mins

CODE	SIZE	COLOUR	CTN
GRIP/AL	450ml Aerosol	Clear	6

Substrates:
Direct to metal, prepared OEM paint surfaces, SMC, fibreglass, lightly abraded E-Coat

HIGH#5 High Build Primer Filler

A primer with ultra high build filling properties for a very smooth surface prior to application of the top coat. Ideal for spot repairs on fully cured paint, polyester body fillers, GRP and prepared steel.

- Produces a similar film thickness to spray applied primers
- Fast drying, easy to sand

1-2 coats @ 25cm

60 mins

HIGHWAL	450ml Aerosol	White	6

Substrates:
Direct to metal, prepared OEM paint surfaces, aluminium, galvanised, SMC, fibreglass, lightly abraded E-Coat

WIPE#6 Solvent Based Degreaser

An anti-static, anti-silicone degreaser that removes contaminants including wax, grease and silicones.

- Fast evaporating for localised repairs
- Formulated to avoid attack on existing paint film
- Can be used on bare metal and existing paint surfaces

@ 25cm

CODE	SIZE	COLOUR	CTN
WIPE/AL	450ml Aerosol	Clear	6

Substrates:
Direct to metal, prepared OEM paint surfaces, aluminium, galvanised, SMC, fibreglass, lightly abraded E-Coat

GUIDE#7 Dry Guide Coat

A highly effective dry powder guide coat that highlights and identifies surface imperfections when sanding fillers or primers.

- Does not clog or block abrasives
- Suitable for dry or wet sanding
- Fast drying

1-2 coats @ 25cm

CODE	SIZE	COLOUR	CTN
GUIDE/AL	450ml Aerosol	Black	6

Substrates:
Direct to metal, prepared OEM paint surfaces, aluminium, galvanised, SMC, fibreglass, lightly abraded E-Coat

ACID#8 1K Acid Etch Primer

Promotes paint adhesion to difficult substrates such as galvanised steel and aluminium. Ideal for rub through areas in primer prior to application of colour.

- Fast drying
- Super smooth finish - can be directly overcoated
- Excellent anti-corrosive properties

1-2 coats @ 25cm

10-20 mins

CODE	SIZE	COLOUR	CTN
ACID/AL	450ml Aerosol	Grey	6

Also available in 1L tin - ACID/1 page 28

Substrates:
Direct to metal, prepared OEM paint surfaces, aluminium, galvanised, SMC, fibreglass, lightly abraded E-Coat

BLEND#9 Fade Out Solvent

A fast and effective blending solvent to fade out the edges of clearcoat and solid colours. Ideal for all types of repairs.

- Invisible blend finish
- For use with all coatings
- Suitable for SMART repairs

1 coat @ 25cm

CODE	SIZE	COLOUR	CTN
BLEND/AL	450ml Aerosol	Clear	6

Substrates:
Direct to metal, prepared OEM paint surfaces, aluminium, galvanised, SMC, fibreglass, lightly abraded E-Coat

GUARD#10 Gravi-Gard™ Stone Chip Protector

A textured, durable coating to protect against stone chips, salt, damp and rust. Supplied with two nozzles for either a fine or coarse finish.

- Sound dampening - ideal for body panels and inside engine compartments
- Fast drying and can be overpainted
- High build formulation covers weld marks and seams

1-2 coats @ 25cm

3-4 hours

CODE	SIZE	COLOUR	CTN

U-POL COATINGS

Made from the highest quality European resins, **U-POL** coatings offer superior performance in a range of formulations to suit a variety of bodyshop conditions and specialised applications. The range includes the comprehensive **System 20** range, all of which can be air dried, low baked or I.R. cured.

SYSTEM 20

- **System 20** is a comprehensive range of coatings, primers and thinners for application with most water and solvent borne basecoat paint systems.
- **System 20** features excellent UV resistance and a durable high build, high gloss finish.
- **System 20** Coatings are available in VOC compliant formulations.

SYSTEM 20 CLEARCOATS

The **System 20** Clearcoat range is formulated to deliver high build, high gloss coatings offering excellent UV resistance and long term durability. **System 20** Clearcoats can be applied over most common basecoat paint systems including water based, with excellent flow and non-sag properties. Different formulations are available including specialised functions all of which can be air dried, low baked or I.R. cured.

S2080 Superior HS Clearcoat

A superior high solids clearcoat providing excellent depth of gloss and image clarity. Crystal clear formula which will not discolour the basecoat making it ideal for all types of paintwork applications.

- Excellent UV and weather resistance
- Tough and durable
- Thin by up to 10% with **U-POL System 20** Thinners

CODE	SIZE	COLOUR	CTN
S2080/1	1L Tin	Clear	6
S2080/5	5L Tin	Clear	2

* Recommended for non-voc compliant applications

S2080SR Crystal Clear Scratch Resistant Clearcoat

High solids acrylic clearcoat forms a durable and tough scratch resistant surface. Crystal clear formula will not discolour the basecoat. Recommended for multiple panel and full resprays for a very high gloss finish.

- Tack free in 60 mins
- Easy to flat and polish
- Thin by up to 10% with **U-POL System 20** Thinners

CODE	SIZE	COLOUR	CTN
S2080SR/1	1L Tin	Clear	6
S2080SR/5	5L Tin	Clear	2

S2081EV Diamond UHS Clearcoat

Ultra high solids acrylic coating recommended for all basecoats. Easy to use with a dust coat followed by a full coat with no flash off required between coats. Cure time can be reduced by up to 30-50% when used with S2005EV Accelerator, (application and environment dependent).

- High build UV resistant coating
- Excellent flow and non-sag properties
- Use only with S2038EV and S2039EV hardeners

CODE	SIZE	COLOUR	CTN
S2081EV/1	1L Tin	Clear	6
S2081EV/5	5L Tin	Clear	2

SYSTEM 20 PRIMERS

System 20 Primers - a range of high quality automotive primers that can be applied directly to most substrates including E-coat. The primer range has been extended to include 3 colours - black, white and grey. These shades make up the colours to support U-POL Grey-Shades System.

S2021 Ultra High Solid High Build Primer

A fast drying, multi-purpose primer offering the functionality of '2 products in 1' - primer filler and primer surfacer. High adhesion and corrosion resistance makes it suitable for spot repairs to full panel applications.

- Excellent build and opacity
- Fast drying
- Use with S2030 and S2032 hardeners

CODE	SIZE	COLOUR	CTN
S2021G/1	1L Tin	Grey	6

U-POL Grey-Shades Primer System

U-POL Grey-Shades will support the bodyshops to create the right ground colour to match topcoat colour, ensuring coverage and colour match are achieved with the minimum number of coats. Mixing two primers in below mixing percentage/ratio can achieve the desired shade of ground colour.

S2021 / S2025	1	2	3	4	5
White	100%		75%		
Grey		100%		50%	
Black			25%	50%	100%

SYSTEM 20 SOLID COLOURS

High performance 2K solid colours.

S20600

Solid Colours

High quality acrylic solid colour for direct application over **U-POL** primers. Easy to polish when cured by air, low baked or I.R.

- High build UV resistant coating
- Excellent hiding power, gloss and long term durability
- Use with S2030 and S2032 hardeners

**ROCKET™
Paint Accelerator**

Liquid additive for use with 2K isocyanate hardeners to achieve rapid through-cure. Accelerates through curing of 2K primers, top coats and clearcoats significantly reducing stoving times. Offers increased workshop throughput and energy savings.

- Reduces drying time by between 30-50%
- Speeds up demasking and overpainting when mixed with 2K hardeners
- Compatible with most 2K coatings

CODE	SIZE	COLOUR	CTN
ROC/S	250ml Bottle	Clear	10
S20ROC/M	500ml Bottle	Clear	6

**S2000
Water Based Degreaser**

High performance anti-silicone panel wipe with aggressive degreasing action to remove contaminants such as wax, grease and silicones. Anti-static properties enable the effective removal of surface static (built up during the preparation stages) prior to overcoating. Ideal for plastic substrates.

- Low VOC formula suitable for solvent sensitive plastics
- Compatible with most paint systems
- Non-flammable, non-hazardous

CODE	SIZE	COLOUR	CTN
S2000/5	5L Container	Clear	2

**S2001 & S2002
Solvent Based Degreaser**

Anti-static and anti-silicone panel wipe with aggressive degreasing action to remove contaminants such as wax, grease and silicones. It is suitable for use on bare metal and existing paint surfaces prior to any painting operation. Two speeds available with fast evaporation ideal for localised panel repairs and slow degreaser for larger repairs.

- Does not attack existing paint films
- Effectively removes contaminants and static
- Compatible with most paint systems

CODE	SIZE	SPEED	CTN
S2001/5	5L Tin	Fast	2
S2002/1	1L Tin	Slow	6
S2002/5	5L Tin	Slow	2

**S2003
Plastic Primer Adhesion Promoter**

Universal plastic primer, promotes adhesion of paints, adhesives and sealants to most plastics prior to the application of colour.

- Ideal for use on difficult to coat plastics such as Thermoplastic Olefins (TPO)
- Fast drying
- Easy to apply

CODE	SIZE	COLOUR	CTN
S2003/1	1L Tin	Clear	6

**S2005EV
VOC Compliant Clearcoat Accelerator**

Liquid additive for use with **U-POL** EV paint systems. Specifically designed for 2K UHS Clearcoat systems. Offers increased workshop throughput and energy savings.

- Improves the cure time for **U-POL** EV paint systems by 30-50%
- Speeds up demasking and overpainting when mixed with 2K EV Clearcoats and Solid Colours
- Significantly reduces stoving times

CODE	SIZE	COLOUR	CTN
S2005EV/M	500ml Bottle	Clear	6

EVERYTHING YOU EXPECT FROM RAPTOR NOW IN AN AEROSOL

RAPTOR
TOUGH AND TINTABLE PROTECTIVE COATING

IDEAL FOR ALL THOSE SMALLER JOBS AND TOUCH-UPS

- UV RESISTANCE
- FAST APPLICATION
- DURABLE FINISH
- 14.5 SQ FT COVERAGE
- PROFESSIONAL QUALITY

WWW.RAPTORCOATINGS.COM

NEW

RAPTOR 2K AEROSOL

The RAPTOR 2K Aerosol offers a fast, easy way to apply RAPTOR without compromising performance, no spray equipment necessary. The durability of RAPTOR with the convenience of an aerosol. Ideal for spot repairs and small jobs (typical coverage is 1.35 m2 per can).

- Textured "gun" finish
- No mess, no clean-up application
- Easy and convenient - activate using the valve on base
- Pot life at 20°C when activated is 60 min
- Spraying at a distance of 60-90cm from the object

RAPTOR 2K ANTI-CORROSIVE EPOXY PRIMER AEROSOL

RAPTOR Anti-Corrosive Epoxy Primer is a 2K high performance primer aerosol designed to be used under RAPTOR Protective Coating to further extend the protective and anti-corrosive properties of RAPTOR. The advanced resin technology improves adhesion to bare metal and most other prepared surfaces such as aluminium and galvanized. It contains a blend of anti-corrosive additives to inhibit rust and corrosion.

- Compatible with all standard water borne and solvent borne coatings
- Easy to activate. Once activated has up to 4 days pot life in can. No measurements and no gun to clean
- The RAPTOR Anti-Corrosive Epoxy Primer Aerosol covers approximately 0.75 - 1.0m2 @ 70µ for 2 coats
- Adjustable spray nozzle suitable for larger repairs as well as precise, controlled

RAPTOR ANTI-CORROSIVE EPOXY PRIMER

The RAPTOR Anti-Corrosive Epoxy Primer is a high performance 2k primer. RAPTOR Anti-Corrosive Epoxy Primer's advanced resin technology improves adhesion to bare metal and most other prepared surfaces, and promotes intercoat performance to further extend the life of RAPTOR protective coating. Approximate coverage per litre 6.00m² @ 75µ DFT.

- Anti-Corrosive additives prevent rust and corrosion with excellent salt spray resistance*
- Improves adhesion to bare metal and most other prepared surfaces and can also be applied directly on to surface rust**
