

**General**

Article number :000471

Description : Leaking container (manual/high model)

**Specification**

- Dimensions (H x W x D): 122 x 95 x 60 cm  
57 x 44 x 18 cm (Funnels)
- Extraction point Connection :  $\Phi$  80 mm.
- Working height : 125 cm.
- Weight: 71,5 kg.
- Leaking tanks: Max. 60 l.
- CE certification: EX CAT III3 G c IIBT 4 (98/37/EEC and 94/9 CE (ATEX), Group II)

**Remarks**

- This professional leaking container is the ideal solution for every workshop that deals with paint product processing.
- All paint and thinner remnants can be drained and stored according to environmental policies and anti-pollution directives.
- All hazardous vapours will be extracted directly via the exhaust duct of the mixing area.
- Conventional as well as water based paints remnants can be processed simultaneously.
- The paint cans (up to 60 litres) are placed in the openings provided where they can leak out completely.
- The large collecting container on four solid wheels can easily be transferred.
- The lid can be fastened or unfastened manually.
