XPRESS305 AD SMART REPAIR CLEAR COAT

Probably the world's quickest air-drying Clear coat that combines excellent flow out and gloss retention with ease of blending out and polishing, if required.

With its outstanding drying performance of 30 minutes at 20°C, its ease of application and water-clear finish when cured, this clear coat is one of the most ideal products for all SMART repair applications and environments.

XPRESS305's UV resistance tests (2,000 hours in accordance with Weather-Ometer® (WOM) Atlas Ci-65 test) resulted in no cracking or loss of adhesion, as well as a greater than 90% gloss retention!

EASE OF APPLICATION

- Simple 2:1 mix with a single hardener. No need for thinners or other additives.
- Easily achieved gun finish
- Easy to polish if required

PREMIUM FINISH

- Excellent flow out and gloss hold up
- Superior weathering and gloss retention through Anti-Scratch technology
