UV PUTTY

GAP 80

Universal UV putty, perfect for spot & smart repair

500g

Transparent grey

UV PUTTY

GAP 80

- Universal UV putty
- The product is chemically stable after curing; no marks, does not sink and does not shrink
- Can be used on most metal surfaces
- Convenient tube; pump directly onto your putty knife, no more unnecessary waste
- No mixing necessary - no air entrapment due to mixing
- Unlimited shelf life
- Dries in 2-5 minutes, depending on the layer thickness
- Drying times are not influenced by temperature or air humidity
- Can be sanded immediately after drying (no cooling time)
- Easy to sand
- Very good finish
- Good flexibility
- Easy to apply
- Perfect for spot & smart repair
