*Lady Edition II*

**SATAmijet 4400 B**

An iconic comeback.

## Lady Edition II

In 2015, the special SATAminijet 4400 B Lady Edition was introduced, dedicated to the then International Women's Day motto "Make it happen!". It was specially designed for female painters and was extremely popular all over the world. To underline the growing importance of women working in the paint application industry, SATA has revived the "Lady" in a new look.

The limited and numbered special edition of the SATAminijet 4400 B impresses with its unusual design reminding of a henna tattoo.

Three sparkling glass crystals let the "Lady" shine in new brilliance. The lasered lettering "Lady Edition II" on the trigger and the aluminum cup, give the spray gun the perfect final touch. For safe storage, the Lady Edition II is delivered in a black case with a black insert that perfectly matches the shape of the spray gun and cup.

**Note:** The complex refining process of the gun surface may entail slight colour shade differences. Colour changes, e.g. by the influence of light, are also possible. The model SATA® Lady Edition II is technically identical to the SATAminijet 4400 B.
