

Cordless · Lightweight · Powerful

ULTRASTAT® is an advanced, high-performance, lightweight anti-static gun designed to help you deliver flawless finishes with ease. Essential for use in the Bodyshop and many other coating industries, **ULTRASTAT®** provides advanced static control for professionals.

Key Features

- **Advanced Static Control:**
Powerfully neutralizes static buildup to prevent dust attraction and deliver flawless finishes.
- **Cordless Operation:**
Offers maximum flexibility and ease of use.
- **Lightweight, Ergonomic Design:**
Reduces user fatigue during extended use.
- **Durable Construction:**
Built for demanding environments.
- **Extended Battery Life:**
10 hours of continuous use on a full charge.
- **Battery Charge Indicator:**
Shows remaining battery life to prevent downtime.
- **ATEX Certified:**
Approved for safe use in spray booths.

Applications

- Automotive painting and refinishing.
- Powder Coating industry.
- Industrial coating.
- Plastic, metal, and composite surface preparation.
- PPF Car Wrapping

Technical Specifications

- Weight: 340g
- Battery Type: Rechargeable Ni-MH Battery
- Battery Runtime: Up to 10 hours of continuous use when fully charged
- Fully Charge Time: 3-4 hours.
- Certified to: CE, UKCA
ATEX II 3G Ex ec IIC T4 Gc standards
