

EASI-SPRAY

**1.5L FOR HIGHLY ACIDIC LIQUIDS, FPM SEALS,
ADJUSTABLE NOZZLE**

Fill Capacity: 1.5L

Total Contents: 1.7L

Weight: 0.48kg

Article Type: Pressure Sprayers

Industry: Cleaning, Industry, Motor and commercial vehicles.

Applications: Impregnating, Cleaning, Lubricating, Pre-wetting.

Max Operating Pressure: 3 bar/44 psi/0.3 Mpa

Tank Material: Plastic transparent

Portability: Hand portable

Nozzle Type: Adjustable. Spot to full jet, spray nozzle

Nozzle Material: Plastic

Spray Wand Length: 5cm

Safety Valve: Yes

Pressure Gauge: Without

Compressed Air Filler Valve: No

Specification:

Extra large filler opening for simple filling. Embossed level scale to monitor the level at all times.

Completely enclosed spray head is easy to clean and protects against malfunctioning due to contamination. 2 in 1 valve enables automatic pressure release in case of overpressure and manual pressure release, if required. Ergonomic handle for comfortable working. Adjustable nozzle from spot jet to fine, even atomization. Plastic protection cap for improved chemical resistance. Spray head with specially coated spring for improved chemical resistance. Particularly chemical-resistant equipment for very aggressive liquids. Polypropylene parts (PP) for improved chemical resistance to acids and bases.

Part No. #85101/ACID
