

RDI2A / RDG2A Ace Double A Spray Gun Cleaner

This spray gun cleaner is the perfect addition to any bodyshop looking for a quick, easy to use solution for Waterborne based spray guns. With an automatic aqueous wash area that can be started and safely walked away from, there is no need for lengthy downtime to clean guns. Paired with its manual wash basin for additional cleaning capacity, two guns can be cleaned at the same time.

FEATURES:

- Automatic wash facility complete with extraction, waterborne re-circulation and clean rinse.
- Fully equipped waterborne wash basin with a flow through wash brush, clean rinse, air gun, all easily controlled with foot pedals and triggers.
- Available in both stainless steel (RDI2A) and powder coated (RDG2A).
- Lifetime pump warranty.
- Magnetic trigger clip fits all main brand spray guns.
- Optional manual wash basin lid.
