

# RDI2S / RDG2S Ace Double S Spray Gun Cleaner

This spray gun cleaner is the perfect addition to any bodyshop looking for a quick, easy to use solution for solvent based spray guns. With an automatic solvent wash area that can be started and safely walked away from, there is no need for lengthy downtime to clean guns. Paired with its manual wash basin for additional cleaning capacity, two guns can be cleaned at the same time.

## FEATURES:

- Automatic wash facility complete with extraction, solvent re-circulation and clean rinse.
- Fully equipped solvent wash basin with a flow through wash brush, clean rinse and air gun, all easily controlled with foot pedals and triggers.
- Available in both stainless steel (RDI2S) and powder coated (RDG2S).
- Lifetime pump warranty.
- Magnetic trigger clip fits all main brand spray guns.
- Compatable with docking station and solvent recycler for additional efficiency.
