

Warning Tape Barrier Reels

Warning tape reels are ideally suited to industrial and commercial situations where a safety barrier is required to prevent people from entering an unsafe or restricted area. The reels can be simply mounted on a wall, the barrier tape then can be pulled across the danger zone and finally hooked on the opposite wall. The tape can then be easily and quickly retracted when access is required. It can also be installed in areas that need cordoning off for maintenance or wherever access must be denied. These reels come complete with a metal ring for hooking and they can also be equipped with the new slow rewind system which allows a safe and controlled rewinding of the tape.

FEATURES:

- Constructed in high impact UV stabilised polypropylene
- Ideal for preventing people entering an unsafe or restricted area
- The tape is manufactured from a strong durable woven textile (width 48mm)
- Equipped with a slow retraction system preventing the tape from speeding back to the reel if the tape is let go (safe operation)

Item	Tape Capacity	Tape Colour	Reel Dimensions			Approx. Weight
			Depth	Width	Height	
SR100-05	16m	Yellow / Black	308mm	155mm	234mm	2.9kgs
